Elin Thim

Systems Developer · .NET, Web & Blockchain

> Systems developer with a vocational degree in .NET and AI and hands-on experience of full-stack development (React, Blazor, C#, SQL, Azure), DevOps and agile teamwork – from CRM development at Unionen to Scrum Master in a team of six. Currently studying blockchain development and cybersecurity, and won 2nd place at Blockathon 2026. Brings 15+ years of experience from insurance, finance and the public sector.

EXPERIENCE

CRM Developer · Unionen — Mar 2025 – Aug 2025 · Stockholm

- Troubleshot and fixed bugs via ServiceNow – from interface issues to complex integration problems
- Wrote unit and system tests and optimised CI/CD pipelines and version control
- Combined low-code with traditional back-end development in C# / .NET

Systems Developer, Internship · Xlent AB — Oct 2023 – Mar 2024 · Sundsvall

Full-stack development of a loyalty bonus system (web + mobile) in a team of six.

- Built an admin interface with Blazor, C# (.NET 8), HTML and JavaScript
- Deployed to Azure with a SQL database and set up CI/CD in Azure DevOps
- Acted as Scrum Master and carried out unit and integration testing

Case handling & finance · IF, Trygg Hansa, Bolagsverket and more — 2006 – 2022 · Sundsvall

15+ years of case handling and finance – domain knowledge in insurance and the public sector.

SELECTED PROJECTS

Blockathon 2026 · Nordic Tech Week — 2nd place — 2026

- Team of four: blockchain solution for the Red Cross that brings transparency and traceability to crisis messages

ClaimPass · Litepaper & prototype — Oct 2026

- Tokenised claim verification for If P&C: one non-transferable token (ERC-721 + ERC-5192) per claim records each verified step – no personal data on-chain
- Solidity smart contract with roles, four-eyes review and payout trigger; 21 Foundry tests and a clickable web prototype

E-commerce platform · Full stack — May – Jun 2023

- React + .NET 7 with Google sign-in and an OpenAI ChatGPT customer service

AI image recognition · Azure Custom Vision — Sep – Oct 2023

- Trained and deployed an object detection model in Azure; C# program for API authentication against Azure Cognitive Services
